

Long School Reminders

Remember that children will try to live up to our expectations. We at Long School set high expectations for our students and we're sure you as parents do the same. Expect your child to help out, stay organized, and complete tasks. Discuss your expectations about their behavior at school and let them know you support school policies.

Please speak with your child regarding safe play. We do not play any games that involve pushing or holding another child. Noon-Hour Supervisors should be respected and students are expected to follow their directions.

Vulgar language and/or profanity is not

acceptable at any time. Encourage children to use proper language. People often judge you by the words you use. Help them learn this lesson now.

Please review rules about talking to or going anywhere with strangers. Children should be clear about what makes a person a stranger. Please notify the school if you notice anything questionable.

Children may not bring any electronic devices such as ipods, cd players or game boys to school. We will not be held responsible for their damage or loss. Also, unless directed by the teacher, children do not need to bring any toys to school.

- As always, only 4th and 5th graders may ride bikes to school. Bikes must be walked in the school area and placed in the bike rack. Skateboards, roller blades and scooters are not permitted as we have no place to store them during the school day.

Medication at School

We have had many questions regarding administering medication during the school day. Please be aware that we are required to strictly adhere to the following procedure:

"All medication must have an authorization

form on file which is signed by both parent and physician.

This includes Tylenol, Motrin, nasal spray,

cough syrup, and other over the counter medications".

As always, we appreciate your support.
